Welcome Message

Greetings and a Warm Welcome to all our esteemed Faculty and delegates from Indian Fertility Society, Vidarbha Chapter (IFS-VC).

The Organizing Committee takes immense pleasure and pride in inviting you all at the academic extravaganza, the **2nd Annual Conference of IFS-VC** organized in association with **The Nagpur Obstetrics and Gynecological Society (NOGS) on Sunday 4th June, 2023.**

In consonance with the spirit of Indian Fertility Society of excellence in patient care and academics; our commitment is towards **meeting challenges, designing solutions and delivering results, because...every couple counts!** The central theme of our conference is **'Caring for the Ovary and Endometrium'** as they are the two key elements that nurture life! **"The soil says, bring me the need & the seed in right proportion and I will flourish into a flower"**. In lieu with this belief, this conference offers a platform for all to enlighten and be enlightened on the in-depth understanding and careful handling of the ovary and endometrium.

We also have a pre-conference workshop on Ultrasound Imaging and follicular tracking on 3rd June. Eminent Pan-India faculty in the field will converge at Nagpur for this conference to provide brainstorming sessions with highest level of academic exchange.

Nagpur, the geographical centre of India is also politically vibrant as the second capital of Maharashtra. It is also known as the Tiger capital of India and is renowned all over the world for its flavourful oranges

Nagpur is well connected by rail, road and air with all major cities of India. The climate at Nagpur in June will be pleasant, with cool breeze waiting to welcome the monsoon as well as all our dear participants..

We promise to deliver a refreshing and rejuvenating experience to you all.

So mark your calender and block the dates.

Lets learn, discern and have fun!
