Chapter	Camp Location	Number and name of ifs team members	Name and number of health authorities	name and number of health care workers trained	Number of patients seen.	common findings in the pt if any-emotional and health issues.	Lesson learned.	any deficiencies from our end.	any other day we can get out.	pt ref to ART units
Haryana	Anganwadi centre village hansala Rewari, Haryana	Dr Seema Mittal	Dr Poonam Jain Dr abhilasha jain Dr madhvi Mr Hariprakash Mr Manjit Mr ritesh Ms sonam Mrs seema (Supervisor Anganwadi)	25 anganwadi workers  Three helpers  20 village females  17 patients attendants  Total 65 beneficiaries.	17	Stress of being called banjh was shared by some.  Financial issue  Lack of awareness  Inhibition in sharing problem.	Working in remote area without AC and frequent power cuts teaches you patience, empathy and insight about the sufferings of fellow human beings. Even today there are couples who are married for seven years, childless with no single investigation. Reaching them was pleasure	Too many things going on simultaneously The camp The audio-visual The zoom	We should hold such camps in every district of the state and appoint a leader from that district.	3

Chapter	Camp Location	Number and name of ifs team members	Name and number of health authorities	name and number of health care workers trained	Number of patients seen.	common findings in the pt if any-emotional and health issues. Vidarbha	<u>Gramin</u> <u>Rugnalya,</u> <u>Bhiwapur</u>	04  Dr. Bindu Chimote  Dr. Sushma Deshmukh  Dr. Indrayani Hatwar  Dr. Amogh Chimote	Medical Superintendent Dr. Darshana Ganvir  Medical Officers: Dr. Amar Kamble Dr. Viplav Kamble Dr. Bhagwat Munde Dr. Ashwini Kale	Health-care Workers Trained: 09  Poonam Akhare  Mayuri Chavan  Ranjana Sonkusare  Suwarna Waghmare  Amit Thomas  Shekhar Thombre  Sukhdev Mahure  Rahul Nagpurkar  Nitin Thakre	No. of Infertile patients seen: 14  Overall patients present for awareness program: about 80	Patients (as well as medical authorities) were totally ignorant about assisted reproduction/ IVF treatment. Most patients were under a lot of social psychological pressure due to inability to conceive. All patients (irrespective of infertile or not) were curious to know about all topics on which flipcharts/ videos were made by us. They wanted to know more	Extensive comprehensive camps need to be undertaken. The paramedics, ASHA and Anganwadi workers need to be enlightened about the common diseases and healthcare facilities available. Awareness about infertility myths as well as treatment options needs to be done actively	Everything was good, well planned but having flipcharts in regional language would have been very helpful. It would have been beneficial if we had advertised the camp among villagers more in advance	The officials have requested us to conduct more such camps at their center.	14

Chapter	Camp Location	Number and name of ifs team members	Name and number of health authorities	name and number of health care workers trained	Number of patients seen.	common findings in the pt if any- emotional and health issues.	Lesson learned.	any deficiencies from our end.	any other day we can get out.	pt ref to ART units
Gujarat	PHC Fariyadka,  Taluka Ghogha,  District Bhavnagar.	Dr.Hitendra Somani  Dr.Paresh Makwana  Emb.Nilesh Suvagiya	CDHO Dr Chandramani Kumar  RCHO Dr Kokila Solanki  Gujrat IFS secretary Dr Hitendra Somani  prof and head Gyne dept & ART committee Dr Kanaklatta  Taluka panchayat mantri	3 Medical Officer (AYUSH)  9 Staff nurse  22 ASHA Workers  4 Village Health Helpers	27	Social issues of lady being blamed for infertility  Financial Problem  Lack of availability of infertility treatment  Unwillingness To accept the problem specially in male partner	Need to win confidence of infertile couple by lot of counselling Need to work in collaboration With village health worker To convince them for infertility treatment  Health education with flip charts and audio visual in local language is very useful	Need to do more advertisement Of camp so that more and more couples can get benefits	By close follow up of couple seen during camp and providing them Best treatment solution at very reasonable price because if one couple becomes pregnant from village then ten more couples will come for treatment	7 of which 5 camp for follow up they were offered free sonography and semen analysis and further follow up

Bihar	Indira Gandhi Institute of Medical Sciences, Patna.	Dr Mithilesh Kumar Dr Om Kumar Dr B P Sinha Dr Manish Mandal Dr Kalpana Singh	-	A total of 5 Anganwadi workers and Asha workers were trained	21	financial issues  frequent investigations  health issues.  biggest cause of stress.  Lack of awareness about fertile period was another important issue and considering female partner as the cause of infertility is a point of serious concern.	People coming from remote areas are surrounded by different problems  patience and empathy and insight about their sufferings is needed to help them.  Spreading awareness about menstrual hygiene, fertile period was widely appreciated by them as they are surrounded by gross negligence.	Too many activities to handle.	Would like to conduct such activities more often	2

Kashmir  J&K	PHC Kunzar, Block Kunzar, District Baramulla.	IFS Add. Joint Secretary and Patron IFS Kashmir Chapter <b>Dr Syed Sajjad Hussain</b>  IFS Kashmir Joint Secretary <b>Dr Snober Gulshan</b> Treasurer <b>Dr Saika Zahoor</b>  IFS Kashmir Executives <b>Dr Masooda Shah &amp; Dr Rabia Shah</b>	Sr IAS Officer Farooq Ahmed Shah  <b>CMO</b> Baramulla <b>Dr Mastoora Iqbal,</b>  <b>Block Medical Officer</b> Kunzer, Baramulla <b>Dr Ruqaya Showkat,</b>  <b>Sr. Medical Officer</b> Kunzer <b>Dr Rifat Bashir</b>  <b>District Health Educator</b> Abdul Rashid Reshi  <b>Registrar Pathology</b> Govt SKIMS Medical College Dr Shazia Mushtaq	<b>150</b> health workers, ASHA workers, Aagan Wadi Workers and some doctors from Govt dispensaries, Govt Medical Aid Centres and PHCs of District Baramulla	<b>93</b> Patients seen by IFS Doctors team	Mostly patients were with <b>primary</b> and <b>secondary infertility</b> of 2 to 20 years.  Lack of awareness  Other health issues with stress and low income	It was pleasure to reach some <b>patients</b> who were totally <b>ignorant</b> about their health issues, stressed with their <b>long infertility</b> and till date without any evaluations and investigations.	Lack of the <b>flip charts</b> in <b>regional language</b> or at least in <b>Urdu language</b> which the ASHA workers, Anganwadi Workers and other healthcare workers can easily understand and then they can aware to the general public  There should be <b>banners</b> in the vicinity and on approach roads of the Camp site.	<b>Chapter Secretary</b> should take initiative to hold such <b>camp</b> s in <b>every district</b> of the state and engage all the Executive members of IFS Chapter in those activities	Around <b>9 patients</b> referred to <b>nearest ART Clinic</b> for more investigations.
